SUMMARY

Full Stack Developer with 3+ years of combined professional experience, including 2.5+ years of full-time product delivery and a 6-month MERN internship. Builds production web and mobile applications using JavaScript, TypeScript, React, Next.js, Node.js, and React Native. Experienced in REST APIs, multi-tenant and RBAC systems, payment integrations, authentication, and cloud deployments; improved API response time by 40% and Core Web Vitals by 30%.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Frontend: React.js, Next.js, React Native, HTML5, CSS3, Tailwind CSS, Redux, Bootstrap

Backend: Node.js, Express.js, NestJS, REST APIs, Webhooks

Databases: MongoDB, MySQL

Cloud & Tools: DigitalOcean App Platform, CI/CD, Git, GitHub, GitLab, Postman, Firebase

Authentication & Security: JWT, OAuth, SSO, RBAC

WORK EXPERIENCE

Telco Communications - Full Stack Developer | Bengaluru, India

January 2024 - Present

- Reduced API response time by 40% by optimizing middleware, query structure, and backend architecture.
- Improved Core Web Vitals (LCP, FCP, TBT) by 30% using lazy loading, code splitting, and asset optimization.
- Built and maintained e-commerce systems covering catalog, cart, checkout, and order management, integrating Stripe, Razorpay, and PayPal.
- Delivered real-time web and mobile experiences using Google Maps delivery tracking, Firebase push notifications, WhatsApp OTP, React Native, and Redux.
- Built role-aware admin dashboards for users, products, orders, and real-time analytics, and implemented SSO to streamline secure access.
- Deployed and maintained production systems on DigitalOcean App Platform using CI/CD pipelines, custom domains, DNS, and SSL configuration.

Refactor Academy - MERN Stack Developer Intern | Remote

July 2023 - December 2023

- Built and optimized MERN modules for SkillIQ, an online interview platform, covering candidate workflows, assessment management, and performance tracking.

SELECTED PROFESSIONAL PROJECTS | TELCO COMMUNICATIONS

AutomatedSystems – ERP for Project & Customer Management | React.js, Node.js, MongoDB, Express.js [↗ automatedsystems.com](#)

- Built a multi-tenant ERP platform for project, customer, and workflow management with tenant-aware role-based access for admins and clients.
- Implemented role-based dashboards for admins and clients to monitor project milestones, tasks, and updates.
- Designed scalable REST APIs for customer onboarding, project lifecycle management, and reporting modules.

Skibboo – Kids Study & Play App | React Native, Node.js, MongoDB [↗ Play Store](#)

- Developed a mobile platform enabling kids to create and join study/play sessions with parental controls.
- Implemented secure authentication and collaborative features for safe social interaction.

OSI – Professional Association Website | React.js, Next.js, Node.js [↗ osindia.org](#)

- Built a role-based web platform for a medical association with secure membership and fellowship workflows.
- Designed scalable frontend and backend architecture for handling user roles and approvals.
